Cable drum roller – pre-assembled, incl. support rollers Load bearing capacity 215 kg PRO 530	10134
PRO 670	10135

RUNPOTEC's innovative, high-quality cable drum roller made from lightweight yet solid pressure-cast and continuous-cast aluminium featuring sturdy, adjustable support rollers is ideal for very high loads in everyday use. The support rollers with spring core axles can be easily adjusted to accommodate a wide range of cable drum sizes up to max. Ø 1000 mm thanks to gap adjustment to 85, 160, 225, 290, 310 and 335 mm. The closed support roller bearings offer protection against dirt and corrosion and thus guarantee maintenance-free operation. The four compact feet made of high-quality plastic ensure the cable drum roller always stands securely without risk of slipping and that already completed floor coverings are protected. The high-quality, functional design featuring sophisticated technology guarantees a long service life. **Cable drum roller PRO 530 and PRO 670 can be retrofitted with castors!**
